OBJECTIVE

After completing my **Bachelor's** Degree in Computer Science at **COMSATS University Islamabad (Medium of Instruction was English),** I have gained valuable experience working as an IT manager, web developer, and stock manager across various platforms since December 2020. This has equipped me with the necessary skills and expertise to take on significant projects and efficiently handle multiple tasks simultaneously. I am now highly motivated to contribute my abilities towards the success of an organization, NGO, or administration. Consequently, I am actively seeking a permanent or contractual position, either full-time or part-time, where I can utilize my skills to help the company or organization achieve its legitimate goals.

SKILLS

- **Leadership**

Enhanced leadership skills through visionary guidance, effective communication, and fostering collaboration for impactful results.

- **IT Skills**

I have acquired expertise in various IT domains such as web development, database administration, project management, and security governance. Additionally, I possess comprehensive proficiency in applications like MS Office, Photoshop, as well as operating systems including Windows and Linux.

- **Management**

Equipped with valuable experience as an Afghan representative at both school and university levels, I have honed my skills in managing diverse activities and acquiring essential competencies for future success.

- **Code developer**

I am a professional code developer with skills in writing, debugging and executing the source code of a software application.

EDUCATION

2018-2022   **Bachelor in Computer Science**
Comsats University, Lahore campus

2018   **Zero Semester**
Islamia College University

2011-2014   **High School**
